

ACCESSORIES

Circular Knives

Mecanum's circular knives allow you to cut your porous materials to the recommended diameter. Available in 29, 44.4 and 100 mm.

Resistive Screen and Fabric Holder

Mecanum's resistive screen and fabric sample holder ensures an easy and perfectly sealed installation of fabric materials or other type of resistive film in an impedance tube. Combined with FOAM-X software, you will be able to characterize and model any screen or fabric with high accuracy.

Distributed & Maintained by

Porous Material Slicers

Mecanum's porous material slicers allow you to easily slice your porous materials to the recommended thickness. Available in 29, 44.4 and 100 mm.

Square Sample Holder Add-On

Transform your 44.44 mm circular impedance and transmission tube to a square one! Mecanum's square sample holder add-on allows to measure acoustics indicators of square specimen like metamaterials based on 2 or 4 microphones methods.

Want to go further with practical accessories for your measuring instruments? Profit from all functions, increasing quality or avoid time losses?

Don't look further, we have the perfect accessory to suit every need!

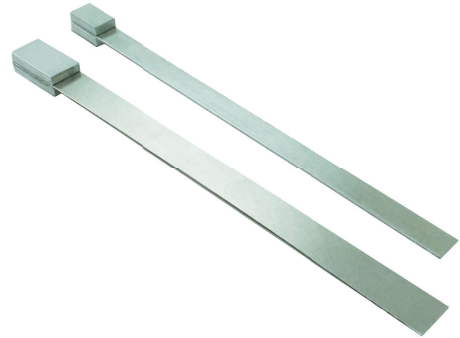

ENVIRO Weather Station

Mecanum's weather station allows to measure the air atmospheric conditions (pressure, temperature and relative humidity) in order to deduce its acoustic and thermodynamic properties.

Beams Set

Mecanum offers different beam sizes with lengths from 200 to 300 mm and with widths from 15 to 20 mm. Available in aluminum or steel (always with steel roots).

Enclosure

Mecanum's enclosure protects your airflow resistivity meter (SIGMA) from harsh environments.

Air Compressor

Mecanum's air compressor is perfectly adapted for our airflow resistivity meter (SIGMA).

And if we don't have the accessory you need... We will design and fabricate it!

- Custom sample holders
- Custom diameter for circular cutters and slicers
- Custom verification samples
- Custom software add-ons
- Custom hardware communication modules
- Custom measuring instruments

WARRANTY & SUPPORT

All Mecanum characterization systems are covered by a one-year limited warranty and technical support. Valid only on manufacturing defects and does not cover damage due to abuse or improper use of the equipment.

Please note that the technical aspects of our equipment may be subject to change without notice
